How Does Minnesota Compare?

Starting in 1969, MTA released comparisons of state and local taxes and spending under the name “How Does Minnesota Compare?” These releases were historically in the fall of the year, two years after the year of comparison. The data for FY2009 is based on surveys, whereas the more complete Census of Governments occurs every five years (those years ending in a 2 or a 7).

Readers will note that our historical data has gaps for FY2001 and FY2003. The Census Bureau made the decision not to publish state and local tax data by state for these years, partly to return to a more timely release for this series.

Why This Booklet?

This booklet is designed to provide just one snap shot of the fiscal picture of Minnesota.

If you want to find out how Minnesota’s overall tax collections or spending compare to the other states, this is the place to look. If you want to know what tax Minnesota relies on more than others, this is also a good publication to check out. But if you want to know your particular tax burden, you will have to consult one of our other studies (50-state property and income tax burden studies based on specific property value and income level examples). You will not find your tax burden in this booklet, only averages based on statewide collections.

But the statewide averages still give you a lot of information. On the next page are two summary tables to provide you an overview of the Minnesota numbers in this publication.

Revenues

MINNESOTA STATE & LOCAL TAX COLLECTIONS						
per \$1,000 of Personal Income						
Tax Category	2008		2009		Rank	
	Amount	% of US	Amount	% of US	2008	2009
Property Tax (S & L)	\$30.56	87.6%	\$31.74	91.8%	30	27
Ind. Income Tax (State)	36.11	122.8%	31.13	127.3%	6	4
Ind. Income Tax (S & L)	36.11	113.2%	31.13	116.2%	9	6
Corp. Income Tax (State)	5.91	109.2%	3.49	96.4%	14	17
Sales Tax (State)	22.33	100.0%	19.60	102.2%	26	23
Sales Tax (S & L)	22.70	81.5%	20.11	82.9%	36	36
Excise Tax (State)	14.14	136.1%	13.39	141.2%	12	7
Total Taxes (S & L)	118.18	101.7%	107.65	103.8%	19	14

Percent of U.S. calculated using only states that levy the tax in question.

MINNESOTA STATE & LOCAL TAX COLLECTIONS, FY2009						
Tax Category	Per Capita			Per \$1,000 of Income		
	Amount	Rank	% of US	Amount	Rank	% of US
Property Tax (S & L)	\$1,345.23	21	97.4%	\$31.74	27	91.8%

Source: Bureau of the Census, State and Local Finances 2008-09. Calculations by MTA.

Special States

Several states have unusually high tax and/or spending numbers that affect their rankings, but do not accurately reflect the tax load on their residents. Alaska is the most prominent one, which because of its oil reserves fund, annually makes payments to its residents of about \$1,000 per person. Wyoming and Montana tax their coal industries very heavily, thus shielding the average taxpayer from the cost of higher than average spending. Consider all Alaska data and primarily spending data for Wyoming and Montana with this in mind.

Sources

All tax and spending data used in this report were obtained from the Census Bureau's Internet web site (www.census.gov), plus population data. Income data were obtained from the *Survey of Current Business* October 2010 issue published by the Bureau of Economic Analysis. Spending categories are defined by the Bureau of the Census; we provide those definitions beginning on page 38.

Differences

The Minnesota Department of Revenue and other groups publish rankings similar to those found in this publication. Our results for tax collections and expenditures per \$1,000 of personal income differ at times from these other sources. There are generally two reasons for this: first is that MTA has tried to use the same revisions of personal income for our calculations. This publication uses the August 2010 revision of personal income for consistency with other years in our time series. Other organizations may use slightly different measures; for example, the Minnesota Department of Revenue's Tax Research Division updates their tax rankings to account for revisions to tax collection, personal income, and population data.

Secondly, there is a difference based on the allocation of the motor vehicle sales tax. Minnesota, New Mexico, North Dakota, Taxes, Vermont, Virginia, and the District of Columbia report motor vehicle sales tax separately from the general sales and use tax. Historically, this publication has not adjusted for this difference, because of the time-sensitive nature of the report. The Minnesota Department of Revenue's rankings adjust for this difference, while reports issued by most other groups do not.

Fiscal Year 2010 Rankings (State Taxes Only)

The tables in the publication are for fiscal year 2009, the latest year for which both state and local tax and spending information is available from the U.S. Department of Commerce, Census Bureau.

Data for fiscal year 2010 was available for state tax collections only at the time of this writing. Since state and local revenue systems are intertwined, we do not publish full rankings tables for state taxes alone. Instead, the table below provides Minnesota's state tax rankings for fiscal year 2010 for the major taxes collected by the state.

MINNESOTA STATE TAX COLLECTIONS						
Per Capita and per \$1,000 of Personal Income, FY2010						
(State Taxes Only--see text above)						
Tax Category	Per Capita			Per \$1,000 of Income		
	Amount	% of US	Rank	Amount	% of US	Rank
Individual Income Tax	\$1,310.00	134.6%	5	\$31.16	127.8%	5
Corporate Income Tax	146.88	94.3%	12	3.49	94.3%	18
Sales Tax	824.39	102.9%	19	19.62	102.9%	21
Excise Tax	563.19	151.8%	6	13.40	143.6%	7

Key Issues in Interpreting the Data and State Rankings

In comparing tax and spending levels across states, it's important to recognize several issues which can influence both the interpretation of the data and the conclusions drawn from it.

Separate vs. Combined State and Local Data

Combining state and local data provides the best measure for making comparisons between states for two reasons. First, state and local taxes together best reflect the total burden imposed by governments on its citizens. Second, states differ significantly in allocating responsibility between state and local governments in providing and paying for government services. For example, Minnesota has one of the most state reliant public education finance systems in the nation with over 70% of K-12 funding coming from state revenues. Many other states remain highly dependent on local property taxes for K-12 education and receive less than 50% of their revenue from state sources. Focusing on state or local tax burdens independently leads to inappropriate and misleading “apples to oranges” comparisons. States with substantial transfers of revenue from state to local governments will inflate state government-only tax rankings and depress local government-only rankings.

Per Capita vs. Per \$1,000 of Personal Income

This publication, like those produced by other sources, includes rankings based on taxes and expenditures both per capita and per \$1,000 of personal income. Each analysis provides a lens through which to view a state's overall financing and expenditures. Using them together provides the best and broadest possible perspective. Each analytical approach has its merits and limitations.

Per Capita Analysis

A per capita analysis is useful in that it provides a per-person view of taxes collected and the cost of services provided. Since taxes are paid by people and services are provided to people, the analysis provides a sort of “real feel” measure. However, a per capita analysis does not reflect the citizenry's ability-to-pay. It also does not take into consideration wealth differences between states. According to the Department of Revenue's Tax Research Division, in FY 2008 differences in per capita income could explain 79% of the difference in tax revenue per capita (excluding Alaska).¹ Minnesota's per capita income is higher than the national average, and Minnesota's per capita rankings reflect this differential.

Per \$1,000 of Personal Income Analysis

A per \$1,000 of income analysis is useful in that it provides a viewpoint based on the ability of the state's citizens to shoulder the tax and spending burden. It also provides some adjustment for the relative wealth of individual states. However, this analysis assumes that government tax collections and spending should grow at the same rate as the economy. In many cases, government spending is counter-cyclical; government spending increases as personal income declines. This is most common with health and human service programs. Moreover, the U.S. Commerce Department's definition of “personal

¹ Minnesota Department of Revenue. Tax Research Division. [Tax Ranking FAQ](http://taxes.state.mn.us/legal_policy/Documents/research_reports_content_08_faq.pdf). Accessed March 16, 2011. http://taxes.state.mn.us/legal_policy/Documents/research_reports_content_08_faq.pdf

income” does not include capital gains, which comprised between 3% and 8% of federal adjusted gross income in Minnesota between tax years 1997 and 2008.²

Limitations of Both Types of Analysis

Certain limitations apply to both types of analysis. Neither analysis accounts for taxes paid by nonresident workers (a significant issue in the seven-county metropolitan area) and consumers (think Mall of America). In both cases, these tax dollars are counted in the Census tax data, but the people paying them are not included in either the population or personal income totals. This inflates collection totals per capita and per \$1,000 of income. The error is somewhat mitigated by Minnesota residents paying out-of-state taxes, but measuring the aggregate effect is very difficult. Moreover, many state and local taxes (income and property taxes, for example) are deductible from federal taxes. This effectively exports part of the state-local tax burden to the federal level. Neither type of analysis measures the effect of this exporting.

Federal and Non-Tax Revenues

Taxes are only one source of state and local revenues. The other two major sources of revenues are non-tax revenues (user charges, licenses, et cetera) and payments from the federal government. Minnesota is relatively less reliant on these types of revenues than other states. When looking at both tax and non-tax revenues (known as “all state and local own-source revenues”), Minnesota ranks 12th per capita and 23rd per \$1,000 of income for FY2009. When looking at all general revenues (both own-source and federal revenues), Minnesota ranks 17th per capita and 32rd per \$1,000 of income. The table on the next page provides detailed results.

Definitions of Spending Categories

The Bureau of the Census collects revenue and spending data from state and local governments on an ongoing basis. The Census Bureau provides definitions for each spending category in order to provide consistency in reporting, and therefore comparability, between different jurisdictions. The category definitions are available from the Census at is: <http://www.census.gov/govs/estimate/definitions.html>, however, we provide those definitions here as a matter of convenience.

Air Transportation: Construction, maintenance, operation, and support of airport facilities.

Corrections: Confinement and correction of adults and minors convicted of offenses against the law, and pardon, probation, and parole activities.

Elementary and Secondary Education: Payments for instructional, support services, and other activities of local public schools for kindergarten through high school programs.

Financial Administration: Activities involving finance and taxation. Includes central agencies for accounting, auditing, and budgeting; the supervision of local government finances; tax administration; collection, custody, and disbursement of funds; administration of employee-retirement systems; debt and investment administration; and the like.

Fire: Fire fighting organization and auxiliary services; fire inspection and investigation; support for volunteer fire forces; and other fire prevention activities. Include cost of fire fighting facilities, such as fire hydrants and water, furnished by other agencies of the government.

Health and Hospitals: Comprised of two spending categories:

Health: Outpatient health services, other than hospital care, including: public health administration; research and education; categorical health programs; treatment and immunization clinics; nursing; environmental health activities such as air and water pollution control; ambulance service if provided separately from fire protection services, and other general public health activities such as mosquito abatement. School health services provided by health agencies (rather than school agencies) are included here. Sewage treatment operations are classified under Sewerage.

Hospitals: Financing, construction, acquisition, maintenance or operation of hospital facilities; provision of health care; and support of public or private hospitals.

Higher Education: Includes local government degree granting institutions which provide academic training above grade 12. Agricultural extension services and experiment stations are classified under Natural Resources and hospitals serving the public are classified under Hospitals.

Highways: Construction, maintenance, and operation of streets, highways, and other related structures, including toll highways, bridges, tunnels, ferries, street lighting, and snow and ice removal. However, highway policing and traffic control are classed under Police Protection.

Housing and Development: Construction and operation of housing and redevelopment projects, and other activities to promote or aid housing and community development.

Interest on the General Debt: Amounts paid for the use of borrowed money. Does not include payments of principal.

Judicial/Legal: Courts and activities associated with courts including law libraries, prosecutorial and defendant programs, probate functions, and juries.

Libraries: Provision and support for public library facilities and services.

Natural Resources/Parks: Comprised of two spending categories:

Natural Resources: Conservation, promotion, and development of natural resources, such as soil, water, forests, minerals, and wildlife. Includes irrigation, drainage, flood control, forestry and fire protection, soil reclamation, soil and water conservation, fish and game programs, and agricultural fairs.

Parks and Recreation: Provision and support of recreational and cultural-scientific facilities and activities including golf courses, play fields, playgrounds, public beaches, swimming pools, tennis courts, parks, auditoriums, stadiums, auto camps, recreation piers, marinas, botanical gardens, galleries, museums, and zoos. Also include building and operation of convention centers and exhibition halls. Public libraries are included under Libraries.

Other Expenditures: Comprised of several spending categories:

General Expenditure, not otherwise classified: General expenditure for purposes and activities not falling within any standard functional category and unallocated amounts relating to two or more functions.

Other Governmental Administration: Activities of governing bodies, offices of chief executives, and central staff services and agencies concerned with personnel administration, recording, planning, zoning, and the like.

Parking Facilities: Construction, purchase, maintenance, and operation of public-use parking lots, garages, parking meters, and other distinctive parking facilities on a commercial basis.

Protective Inspection and Regulation: Regulation of private enterprise for the protection of the public and inspection of hazardous activities except for major functions, such as fire prevention, health, natural resources, etc. Distinctive licensing collection activities are classed under Financial Administration.

Sea and Inland Port Facilities (Water Transport and Terminals): Construction, maintenance, operation, and support of canals and other waterways, harbors, docks, wharves, and related marine terminal facilities.

Social Insurance Administration: For state and local governments consists of Employment Security Administration activities, which compromise only administration of unemployment compensation programs and employment offices.

Solid Waste Management: Street cleaning, solid waste collection and disposal, and provision of sanitary landfills.

Veterans' Services: Cash bonuses to veterans and other financial grants not contingent on need, administration of bonus payments, veterans' information and guidance services, and other veterans' services not classified under Public Welfare, Education, Hospitals, or other functions.

Public Buildings: Provision and maintenance of public buildings not allocated to particular functions.

Public Welfare: Support of and assistance to needy persons contingent upon their need. Excludes pensions to former employees and other benefits not contingent on need. Expenditures under this heading include: Cash assistance paid directly to needy persons under the categorical programs (Old Age Assistance, Temporary Assistance for Needy Families) and under any other welfare programs; vendor payments made directly to private purveyors for medical care, burials, and other commodities and services provided under welfare programs; and provision and operation by the government of welfare institutions. Other public welfare includes payments to other governments for welfare purposes, amounts for administration, support of private welfare agencies, and other public welfare services. Health and hospital services provided directly by the government through its own hospitals and health agencies, and any payments to other governments for such purposes are classed under those functional headings rather than here.

Sewer: Provision of sanitary and storm sewers and sewage disposal facilities and services, and payments to other governments for such purposes.

Total Education: Includes Elementary and Secondary Education (defined elsewhere), Higher Education (defined elsewhere), and Other Education. State expenditure for Other Education includes state educational administration and services, tuition grants, fellowships, aid to private schools, and special programs.

MISSION STATEMENTS

The Minnesota Taxpayers Association exists to educate and inform Minnesotans about sound fiscal policy; to provide state and local policy makers with objective, non-partisan research about the impacts of tax and spending policies; and to advocate for the adoption of rational public fiscal policy.

The Minnesota Center for Public Finance Research, previously known as the Minnesota Tax Foundation, is the 501(c)(3) supporting research and education organization for the Minnesota Taxpayers Association. The Center's mission is to provide objective research and analysis on state and local tax and spending issues in support of effective, efficient, and accountable government. The Center seeks to equip citizens to be influential voices for good government and sound fiscal policies by increasing public understanding of what government does. For more about the MCPFR and its publications, visit our website at www.mntax.org/cpfr. All contributions are tax deductible.

MEMBERSHIP IN MTA

You can automatically receive newsletters, legislative bulletins, and other publications and support the work of this association by joining the Minnesota Taxpayers Association.

Membership in the Minnesota Taxpayers Association is open to business and individuals, and dues start at \$100.00. Units of governments, including schools and libraries, may subscribe to receive our publications.

To join please complete and return the form below to: Minnesota Taxpayers Association, 85 E. 7th Place, Suite 250, Saint Paul, MN 55101. A member of our staff will contact you. Please call (612) 224-7477 or (800) 322-8297 if you have any questions.
